

# "GARDENING WITH A PASSION"

On January 16, 2017, the Head Start Gardening Project was awarded \$250.00 by Family Connection-Communities in Schools of Hancock County, Inc. Head Start is one of the three strong supporters of students' birth to age eight in literacy and health. This award was made possible through Georgia Family Connection, Family Connection-Communities in Schools of Hancock County, Inc., Early Childhood Literacy and Health Cohort with support from the Annie E. Casey Foundation and the Blank Foundation. Funds donated to the Hancock County Early Head Start, Head Start & Pre-K program will be used to assist and support the Head Start raised bed garden project.

Mr. Gary Hill and Mrs. Betty Legette were in attendance to receive the award for Head Start presented by Regina Butts, Executive Director of Family Connection-Communities In Schools of Hancock County, Inc. and Mrs. Annie Ingram, Chairperson of the Hancock Board of Education. Our program is very grateful and we are making plans to expand and offer our students the best and more hands-on gardening activities in the area. **LET'S PLANT A SEED AND WATCH IT GROW!**
